Olympic Green Epoxy

Limited 7 Year Corrosion Warranty

Performance warranty is extended to initial owners and installations.

Olympic green epoxy shelves and posts carry a 7 year limited warranty against surface rust formation from the original purchase date by the initial owner.

Product must be cleaned with mild detergents as dirt and residue become visible.

Warranty may be voided by:

- Fracturing, chipping or otherwise damaging the finish.
- Use of abrasive materials including stiff brushes or scrapers.
- The use of clear polycarbonate totes or stainless pans with sharp edges
- Sustained exposure to corrosive substances or vapors
- Physical damage to the coating

Warranty only applies to product used continuously within a temperature range from -20°F to +120°F (-29°C to +49°C) with intermittent exposure up to 200°F (93°C).

In the event of a warranty claim, an Olympic representative will examine the installation and determine validity, return, or repair. Repairs will be handled by the owner of the initial installation. Returns including disassembly, reassembly and shipping and handling charges become the responsibility of the owner of the initial installation. Replacements will be shipped from Olympic Storage Company's nearest distribution center.
